PROFESSIONAL SUMMARY

Results-driven **Software Engineer & Python Full Stack Developer** with hands-on experience in **Flutter application development** and **Node.js backend engineering**. Skilled in designing cross-platform applications using **Flutter BLoC architecture**, and building secure, scalable APIs with **JWT authentication, rate limiting, and dynamic routing**. Strong foundation in **Python/Django**, SQL, and reusable coding practices. Passionate about solving complex problems and delivering seamless user experiences.

CORE COMPETENCIES

Mobile Development: Flutter (BLoC, reusable widgets, responsive UI/UX)

Web Development: React (Components, Props, Context API, responsive UI/UX), WordPress (Elementor)

Backend Development: Node.js, Express.js, REST APIs, JWT auth, rate limiting

Database Management: MySQL, CRUD operations

API Integration & Testing: Postman, secure data handling

Version Control & Tools: Git, environment configuration (.env)

Python Development: Advanced OOP concepts, clean code practices, and efficient problem-solving

Django Framework: Full-stack web development with MVT architecture, models, views, and forms

TECHNICAL EXPERTISE:

Mobile Development (Flutter)

- Flutter BLoC: State, Event, Repository pattern for clean architecture
- Reusable components & modular design for scalable apps
- Navigation, form validation, API integration, local storage

Backend (Node.js + Express.js)

- JWT authentication and role-based access
- API rate limiting & request validation
- Dynamic routing with middleware
- MVC architecture for modular backend design

Python & Frameworks:

- **Python:** Advanced OOP (Encapsulation, Inheritance, Polymorphism, Abstraction), Lambda functions, Map/Filter Operations, List Comprehension, Exception Handling, File I/O
- **Django:** Models, Forms, Views, URL Routing, Admin Panel, Template Engine, MVT Architecture
- **REST APIs:** API development, integration, and testing with Postman

Web Development: React

- **React:** Components, Props, State Management, Lifecycle Methods, Hooks (useState, useEffect, useContext)
- **Context API:** Global state management and data sharing across components
- **Routing:** React Router for navigation and dynamic routing
- **API Integration:** Fetching and managing data from REST APIs using Axios or Fetch API

WordPress (Elementor)

- **WordPress:** Website setup, theme customization, and plugin management
- **Elementor:** Drag-and-drop page building, responsive design, and layout optimization
- **Customization:** Creating reusable templates, custom widgets, and dynamic content
- **SEO & Performance:** Basic on-page SEO setup, caching, and performance optimization
- **Maintenance:** Regular updates, backups, and site security best practices

Databases

- **SQL:** Joins, Subqueries, CRUD operations, Database Constraints
-

PROFESSIONAL EXPERIENCE:

Software Engineer:

[Key Software Services Pvt Ltd](#) , Kurukshetra, Haryana

Mar 2025 – Present

- Developed cross-platform mobile applications using **Flutter with BLoC architecture**
- Built scalable backend services with **Node.js and Express.js**, implementing **JWT authentication, rate limiting, and dynamic routing**.
- Designed and deployed REST APIs consumed by Flutter mobile apps.
- Created **reusable Flutter widgets** to accelerate development across projects.
- Gained hands-on experience in production-level deployments and backend performance.

Python Full Stack Developer (Trainee):

Industrial Training Program At PySpiders, Bhubaneswar

July 2024- Jan 2025

- Built robust web applications using Django and SQLite with solid MVT architecture.
 - Developed backend logic with clean data flow and SQL.
 - Gained exposure to handling structured data and form submissions, preparing for larger ETL-style data handling.
-

PROJECT HIGHLIGHTS

[Bike Rental System](#) – Python, Django, SQLite

Designed a complete rental lifecycle with date-based filtering and admin dashboards.

[Student Registration System](#) – Python, Django

Built with model-based forms, validations, and optimized database structure.

[Portfolio Website](#) – HTML, CSS, JavaScript, React

Responsive personal site showcasing strong front-end and integration skills.

EDUCATION

B.Tech in Computer Science and Engineering:

Einstein Academy of Technology and Management, Khordha, Odisha (2020 – 2024)

Higher Secondary (Science):

Sri Jagannath College, Khordha, Odisha (2018 – 2020)

Matriculation:

Sri Aurobindo Integral Education Center, Matrustuti, Kalupada, Odisha (2018)
